Ian Wilkinson
Manager

Ian has worked in the sign manufacturing industry since his apprenticeship in 1975 and has been in business since 1981. He has a wealth of knowledge and experience to pass on regarding the best signage solutions for your business.

Newcastle Signforce Safety Sign Catalogue will assist you in making the right choice in signage and help keep your business workplace compliant.

Our range is not limited to the types and styles in this catalogue, as we specialize in custom designed signs. If you don't find what you're looking for, we will tailor-make it to your specifications.

Attention to our customer's needs while offering reliable and professional service is what

Newcastle Signforce's reputation is built on.

Our team of designers and technicians will be on hand to guide you from the initial concept through design, manufacture and installation of your signs. Our recommendations on product and materials will be based on your budget and needs.

The factory in Thornton Industrial Estate houses the latest technology in sign manufacture including Full Colour Wide Format Digital Printers, Computerised Vinyl plotters, Laser Engravers and design software to ensure products of superior quality.

It is our guarantee that you will be provided with the highest quality products, timely delivery, innovative designs, value for money and excellent service at all times.

- Reflective Materials

MANDATORY

This signage is used where an instruction must be carried out. A single symbolic sign (as approved by the Australian Standards AS2342) cut to the shape of the symbol may be used or alternatively placed on a square or rectangular target board. A combination or hybrid sign comprising symbols and words to qualify the message may also be used. Mandatory signs comprise a blue circle on a white background with black wording. Where no symbol has been approved, a worded message may be used.

Hazard Warning signs warn of a hazard or hazardous condition that is not likely to be life threatening. The term Warning replaces the previous term of "Caution" but both terms are regarded as interchangeable.

The AS 2342 approved symbols have been tested and accepted in accordance with the Australian Standard. If no symbol is available for the required purpose then a worded message sign should be used.

DANGER

Used to warn of a particular hazard or hazardous condition that is likely to be life threatening.

All Safety Signs must follow the Australian Standards (AS)1319 guidelines.

The word Danger must appear in white letters inside a red oval placed on a black background. Only messages which can be classified as hazard warning messages can be used on Danger Signs.

CUSTOM

Newcastle Signforce specialize in order specific and custom designed signage. Let us know what you require and we will contact you with a variety of options to suit your needs. For more information on sign types as well as photos of work we do, visit our website at www.signforce.com.au.

Adhesive Vinyl Letters & Numbers

Easy to apply lettering and graphics in a variety of sizes and colours for many uses including: SWL, ROC and Fleet ID numbers, Menu Boards, Boat Registrations and Identification labels.

Engraved Signs

Engraved labels are extremely durable and are a suitable application for room, electrical and equipment identification. They come in many colours and have a self adhesive backing for easy installation.

Hard Hat Emblems

Self adhesive emblems with your logo or certification details help to identify workers and visitors when on site.

Stencils

Spray directly onto various surfaces. Packaging, car park marking, labelling etc.

CUSTOM

Vehicle Graphics

Vehicle graphics are the ideal mobile billboard. They have the potential to promote your business to thousands of commuters each day. Consistent daily exposure is the key to successful marketing.

Illuminated Signs

Illuminated and Neon signage ensures that your business can be found 24 hours a day 7 days a week.

Neon and LED Signs

The most powerful way of promoting your business 24 hours a day is by means of Illuminated or Neon signage. No matter which style you choose, Newcastle Signforce can give you a radiant result.

Billboards and Entry Signs

Professionally designed billboards and entry signs will make sure people know who you are and how to find you

Banners and Graphics

Banners are great for advertising a new event, product or promotion. They are easily packaged and displayed. Ideal for sporting events, trade shows and exhibitions.

Braille and Tactile

To assist the vision impaired, it is a requirement in all Commercial and Public buildings to show Braille & Tactile Signage in all sanitary, accessible entrance, lift facilities and a continuous path of travel from the main entrance to these facilities. Our staff can assist you in organizing BTS for your premises.

Real Estate & Builders Site Signs

From Billboards to site signs, Newcastle Signforce can move your property quicker with a professionally designed sign.

Corporate Logos

Corporate identity is what makes your company unique. Bring your creative vision to life with a Signforce logo design and corporate signage.

Directional Signs

The public rely on visual prompts to direct them effortlessly to their desired location. The effective use of Open Signs, A-Frames, Window Splashes, Banners and well placed Directional Signs will lead them straight to your door.

Portable & Exhibition Signage

Temporary signs can be moveable such as A-Boards and Event Banners, or in place for a short time like Fluorescent Window Splashes. By using these types of signs you can change purchase behaviours by creating an unplanned stop.

Building Signs

Studies have shown that each additional, correctly placed and well positioned sign can directly increase annual sales. The more visible the sign, the higher the increase in turnover.
